Private flying is great and I'm all for it, -- but the noises caused by the great number of planes flying across Broomfield are loud enough to be very annoying and sometimes loud enough to completely destroy the relaxing and recreational use of our own yards and patios for which we are paying a high rate of taxes.

When I considered buying a house in Broomfield six years ago, I inquired about the effect of the Jefferson County Airport on property in the city, and I was informed that only necessary flights would be over the city of Broomfield. Please write your feelings on this matter and send to me at Box 267, Broomfield, 80020. With your help, this invasion of privacy and noise pollution over the property we own can be prevented. I intend to present your replies to City Council and/or any other agency that can help.

Very Sincerely,  
A citizen and lover of Broomfield,  
JOE KARIUS
